ABSTRACT

Ukraine, linguistically Tsar's & Soviet borderland a province was hoisted by USSR (on western counsel) to facilitate the formation of the UNO. Poland was wrenched off from the Warsaw pact which led to the formation of the giant EU. Thereafter Ukraine was wrenched off successfully by western political machinations operating from Poland. In either case Jews had played decisively as much as they had helped Russia in its war against IIIrd Reich. Poland & EU exploited Ukraine astutely and extensively. The Jews were on the verge of being allotted\or wrenching off a parcel of Ukraine and or said 'NO' i.e., betrayed. Tel-Aviv's role secrete & double agent role; all flumoxed. This is the stimulus against which Russia initiated the special military operation. The hope was that since the 'Promised Land' for the Jews had already materialised in 1945 with Russia recognising it the 'Israel Question' was settled. UK-&-US clueless, helpless. Special military operation may be comparable with Falkland & Vietnam. Russia thought the twine would grasp the matter. The twine shot-at-own feet; called it Foreign Policy. UK-EU combine (two unlikely mates) combined to baffle Russia. US was made to see Frankenstein and money-market-prosperity via gore. With glee converted Ukraine into a conundrum. The counter is seeing more nations on Russia's side (increasing)...proving deleterious for the €, £ & \$. A never before tool. Usable. Not phenomena. Russia lost men & material. US & UK are on the verge of loosing fiscally as never before. Double-speak & multi-standards galore. Goebbels congregated on Atlantic shores. Non aligned nations teaming up. 3rd world are angling. Communism gets bolus revival dose. Dominance & Resistance has becaused imbroglia. Here to stay. Dead-sea catalyzed catastrophe. Putin emerges far sighted & astute. Peers look littled; slimy. Win-win solution ? US can allot a mini parcel of her 'borderland' (Mexico side) and\or return Alaska to Russia for Ukraine ! Heuristic, discussion, to tickle & enable academic gymnastics.

INTRODUCTION

The phone 'Ukraine' in domain's poly vernaculars denotes 'borderland' i.e., the Christian Tsar's borderland since c.16th A.D. Beyond, was Moslem land. And 'Tsar' means 'emperor' appointed by Governorates [1; 2]. Even in 1910 such Borderland comprised of 8-10 (sub) governorates [3]. Just half of the Indian nation in geographic area wise Ukraine is a orthodox Christian country with a population of 41 million at a density of 74 persons per square kilometer and is a giant grain bowl also having perennial pristine water, industrial, precious & critical minerals, gold, oil, gas, lithium, everything [4]. Its agro-meteorology is just the best. Even Odisha (eastern shore board -India) has more population on a small geo domain. She, post the Tsar empire's historical period remained a component of the Russian empire (c.18th A.D.) merged with the communist USSR with the Bolshevik revolution (1917). Although of mixed ethnic composition as alike most Borderlands has been a land of war & warriors and the famed Cossacks & Mongols with Zaporozhia as the central locus [5].

Between c.1700 & 1900 the faltering & devolving Ottoman empire had re-claimed Crimea with military assistance from the Franco-British forces in c. 1854 A.D. [6]. Queen Victoria & Florence Nightingale's times [7]. Britain was the extra mural invitee mercenary. The British poet laureate Tennyson penned a paeon about the peerless British chivalry [8]. A sentimental connection exists with such central Asian country in the minds of the British which it seems they can't get away from. Russia reclaimed Crimea from the Ottoman in 1954 and appended it to Ukraine-SSR. Thus, Ukraine (including Crimea peninsula) was also that of USSR nation land. Now, after the fall of Berlin for the formation of the neo UNO replacing the failed League of Nations (1929), as advised by the US, the provinces of Ukraine alongside Belarus the confederate components of the then USSR were positioned by the soviets as founding members of the UNO (sans any real independence) and got to be known as Ukraine-SSR & Belarus-SSR, respectively (SSR = soviet socialist republic). This was an open, frank and internationally agreed upon tactical move to ensure a balance of Soviet side's representation vis-à-vis the western group who comprised the full of the UN. This means out of one large USSR comprised of numerous provinces three theoretical

states were foisted onto the UN. Ukraine-SSR even was made twice a member of the Security Council on behalf of USSR [9]. With Gorbachev's Glasnost and Perestroika Ukraine (borderland region) separated in 1991 with western block's machinations (Poland as the principal & Jew-land designers as backroom players ?) and Crimea was lost by Russia in quirky manner [10;11]. Putin period Russia again wrested it back from Ukraine in 2014 as Ukraine patently leaned west [12]. Ever since 2014 Ukraine has been preparing for a fight with Russia. For that objective commencing with Poland she slowly and carefully permitted the west to creep into Ukraine in strength & style so much so that 'NATO started barking at the gates' of present day Russia – in the words of the Pontiff of Roma [13]. The US thus far failed to fetch even a farthing of Ukraine's natural resource. The UK may have had via Polska. Post 2023 it will be zero. Ukraine also remained embroiled (continues till datum) in a series of scandals, state malfunctioning, alleged and or proven wrong doings [14]. It is whispered that the virion of Covid-19 had its genesis at Chernobyl (60% Aey). President Putin & the officers of his administration have been talking about all this in various global forums since almost a decade before present [15].

Russia's "special military operation" was designed with the hope that Ukraine would succumb to a show of strength comprised of vintage heavy armor & caravan of armored personnel carriers parading in columns and firing in the air. They were proved wrong as Ukraine had a plan in place to use high end western technology; western human; tactical battle; space technology; poly use commercial wherewithal (e.g., starlink) apart multi-lateral state & corporate funding [16]. Every aspect of the would be counter was superbly shielded from the critical eye. Russian intelligence in these matters failed her altogether [17]. Shows, Russia was not intently hearing on Ukraine's dealing with other nations. The special military operations has resulted in a very quick and smooth arraignment of the entire western block against Russia [18]; US joined the race late & from the hind [19]. Russia has failed to retrieve back her erstwhile prized province. In other words, the western block had a robust plan ongoing on ground for long to push NATO upto Russia's mainland borders in spite of SALT treaties; ISS cooperation and lysis of Warsaw pact. Amidst all this Boris & his Tories were in dire need to cover the failings vis-à-vis Brexit and socio-economic mayhem that was severely affecting family welfare of the average subject of the Crown. The UK raised a din with the corporate cajoled free press that Europe is about to be overrun and that US boots were needed expressly ! To accentuate his concept, expecting the € to tumble Boris Andre dynamited the Nord-stream lines (whisper-1). Reverse happened. Mainland Europeans ensured his back [20]. His successor 'Madam' imagined self as Lady Knight in Charge of The Light Brigade and blasted the Crimea bridge in a trance of a dream to wrench off Crimea [21] (whisper-2). Rare, British cowardly act on historical time-line ? Was given a life time shamed vacation by her sane peers. Liz Johnson went with monthly a auto priming huge sacks of tax payer's money and/or from the stocks that Britain had built from her colonies ? Unprovoked UK fought Russia [22-23]; unabashed proxy. UK alike the euro-maritime powers of c.17th-&-18th A.D., has a well honed secrete policy of deputing regular sailors-&-soldiers guised as 'mercenaries' [24]. White House's ugly & unqualified involvement was months away. Philosophers love 'nonsense verse', press practices 'nuisance prose'. Former leads to relaxation, later leads to conflagration. And, they all saw money and no blood – Amen !

Whence Poland surreptitiously & superbly was implementing her master plan to extrite Ukraine out of Russia, use it as a vassal, mine it, make money to upstage UK, and rub shoulders with Germany & France on the EU platforms, the Republican (Bush-Rice) good policy was labeled as 'Chicken Kiev Speech' [25] 1/8/91. US dithered. Euro surged. Poland's natural resources got conserved. She prospered to never before levels, got ambitious, took on Russia on all fronts. Ever since then the green back's and US's merchandise's global market cover has kept retracting [26]. No stopping. Now worldwide there is an anti-US sentiment. Till date the UK is miles afar even getting a pint of Ukraine's oil\gas or a gram of prized raw mineral ! Yet it has spent a fortune against the 'special military op'. The Pound wobbles at a nominal high solely due the London Stock Exchange (LSE).

Move it away and the £ shall tumble. Such wanton acts of the Westminster fails the LSE, thus need to use the BBC & The Guardian, etc., to fudge the facts; to fford past economic financial bungling & political gross wrong doings [27]. The US has gone clueless & 'blip'. The brilliant self aggrandizing well paid dissectors have planted whispering grass 'it is all China's doing'; 'beautiful Kim's long hand'; 'intransigent India'; Putin must put in his papers (as if they had appointed him), etc.

As the EU asserted self variedly in vary many directions between 1990 and 2015 (post German unification) threw US & UK out, including commenting upon the Indian Judiciary and censuring the largest democracy on earth; started pushing Putin. Did so with impeccable modesty, measured words or silence. Russian energy enabled ? The US boots had to depart from Europe. The EU's constitution has deeply dimmed the chances of 'return of the boots'. Maintaining an ultra low profile unlike Polaska [28], Germany delved deep into the Borderland's resource, riches and Russian energy [29]. She fetched fortunes, in continuum spewed ancillaries across the world with major chunk in China; galloped past the UK; posturing all the while altruistic, socialistic; consistent; with enticing Social Contract for her people and underwriting the EU for other's good. Many an east euro nation are opposed to this – Russia's special military operation is the tip of such iceberg. Even then the US remains fiscally & technologically (in the words of Clinton – post Kosovo) "light years ahead" thus (un-spelt) cares not to have any foreign policy hammered on the anvil of 'socio-political consistency'. Her 'carry forward fiscal deficit' mandates 'current year fiscal deficit', cumulatively is the load stone and it shall always force her towards instant profits and short term gains. All others – 'side Bom'. Post 1970 (in the words of the redoubtable P C Alexander – Indira Gandhi's time) the US foreign policy has been 'to shoot at own feet'; remains so [30]; install vassal and-or rouge states; progressed even to promote & propel state sponsored barbaric Islamic militancy. The world is slowly and surely rejecting such non-legislation based - covert agencies concept - approach termed as 'foreign policy' [31; 32]. *De-facto* is unguent applied foreign policy, has a long history. World-wide two generation passed by yearning for peace. Democracies foreign policies have effectively also leashed census out-bursts ? Because Global Warming ?

As a result, since quite some time all multi-lateral groups & guilds want the oil & gas be price jacked and in its place Russian products be up-taken. In place of trade between north-south and east-west the emphasis is to enhance and/or substitute with trade between the tropo-equatorial belts using alternate currencies as legal tender & barter. All are angling with new grammar [33; 34]. Imbroglio is deepening. Such groups, guilds and individual nations are asyclically offering platform's for 'Ukraine peace talks' and ending up by opting for inter & intra trade agreements; bottle necks easements; legal tenders save & except the top trio currencies; rescinding the sanctions and circumventing [35]; quietly adopting the white man's method of double standards and hold it up on face[36]. Very next week Russia's stocks further improves. Such forums have Ukraine as the caption agenda; something else as the embedded agenda; yet another set as embalmed agenda; etc. The imbroglio has affected positively most of the developing nations mentally & materially. The longer gets the conflagration the better for the greater world is the under current pertaining to respective national fiscals, domestic employment, human resource relevance abroad, feel good factor. This is no quagmire. No pan-global recession either. Imbroglio indeed. Solvable at the cost of the greater world. The way Covid-19 management got riches reaching the shores of the developed economies the imbroglio is because a prosperity tide towards the developing nations. Russia is unlikely to yield '*soochaagre medeenee*' (Sanskrit for 'needle tip soil' {of her erstwhile prized province}).

In c.1st A.D., the son of Joseph's teachings and way of life was down-turning commerce and prosperity of the then perched personages. And, commerce killed The Christ. Things went out of control. Christianity swept through lands [37]. Jews were pilloried by the Christians [38]. A chunk of Jews (unconnected with Christ's crucifixion i.e., country folks) sought sanctuary in the land-locked,

relatively more moist central Europe around the Oder valley (Silesia). This was pagan's domain who all by-&-by got evangelized within 200yrs post the crucifixion; some became Jews in diffused pockets with high birth rate. Such social engineering begot long scope consternation. Since, the 1st wave refugees Jews became the 2nd largest religious group in Silesia. By the end of c. 800 A.D., encompassing such mini & micro Jewish settlements a new Christian-political entity (Poland) came into being with Jewish Silesia-to-lower Oder as locus [39]. Oder's perennial slow-flow branching meanders created a wide & long flat alluvial harbinger valley. Being flood prone natives needed least; avoided. For refugees it was choice. Short of nationhood Jews had a territory to themselves - cause of consternation. Subsequently with the active participation of the Jews such new entity called self as 'Poland' i.e., fixed javelin (*shoola* as in Sanskrit) and subsumed a large agro-productive geo parcel. Without a shot she fulminated as the largest geo-political entity in Europe (period basis); A non-land (had) got to be Poland due Jewish mind and material input. Valiant Europeans felt vexed. Overtime, many a players/parties and trouncing kept confronting the Jews; were periodical persecuted; the Jew faith experienced paradigm shifts in fortune & destiny. Irreversible changes happened. Installation of the promised land remained. It was not the objectives nor within the farthest imagination of the crucifying faith adherents (Jews; traders {non farmers/manufacturers}) in the run up to Christ's trial about the social reactions thereafter nor while they helped in the making of the spike land (Polska) & Ukraine. The Jews did not crucify Christ solely for commerce. They more saw in him a threat to their historical homeland. Save & except the later type of threat the Jews would possibly not have crucified the Christ (their law forbids & they are strictlers). However, their input in 1989 Revolution for independent Poland to the Revo of Dignity through Ukraine Independence Revo (1991-2014; step-by-step developments) to subsuming of Poland into EU fold and the Boderland into EU paw was all guided by their urge for a 'Euro-homeland'. Work done – gift not received; quarter century passed by; role of Prussians (in any such denial) looms large (not Russians). Jews europe's human tool !

Something called 'rash' is accepted by the Jews [40]. Their aim-&-objective was 'promised land'. It kept eluding as their model suffered infractions and or the human attitude of 'rash'. Similarly, the 'Ukraine question' may have been due to a couple of parties which precludes secret forward dealings and rashness. The imbroglia is due to too many players, patrons, promoters, performers, et.al., including Sam & sundry having commenced with Andre. While assisting the powers that were involved in solving the Ukraine question behind Russia's back the ramifications were also beyond (Jew's) imagination's horizon or just bothered not that it tantamount to 'betraying flawless friend Russia'. They were "selfish" in pursuit of Jewland [41] ? Imbroglia is a component of the ramifications uncharted due rash. Ukraine and the imbroglia possibly have a Jewish connection.

Americans are ultra swift learners provided someone is not offering Dow for reverse purposes. In this regard, some light in popular ways needs to be thrown upon the background, foreground, the apron and all around of our caption. For most Americans until c.2000 the phone 'Indian' meant Red Indians [42]. The 5000 yr old in-continuum civilization offered no hope of Dow, hence Huguenots grasped not. These prosperity praying people have a laughable sense of history & dictionary. Bother least. Why then did the US CEO bothered to get involved in the 'Ukraine Question'? [43] They were doing no commerce whatsoever there even indirectly. Why such an herculean attempt to crucify Putin? Our search light highlights that on pan global basis the Euro societies alone have a purchasing power for any and all types of US products and services [44]. Rest of the world put together matches not (due to the exchange rate between the Dollar and any other currency). And for the US money & prosperity is God supreme and ethics nationale. So it is valid logic that if burning others home and bursting others hearths ensures commerce and assures more in continuum – so be it. Huguenots & Jews comprise the major part of US census. Either suffers severe hot flush & cold sweat at the thought of dwindling market. Psycho-somatic seizure occurs with the thought that such European market may be lost to Russia. Act as Don Quixote

& Sancho panza ? Cannot be called as foreign policy. It is opportunity time. The US arms syndicate once again acted as the applied policy layer. The US got involved as 'peace seeking politician selling tomes of lethal arsenal'; the most willing of the white lot. Apparently, some genius cum rash entity kindled hopes of (dem) re-election and collateral others, by & by. They took 'smoke' to the White House and sold it as 'hope'. All such vendors are on the departure-line of abandoning Biden. Alike the moon's craters the shadows were deep and the White House cum Pentagon's minions being merely mindful of money missed the malice in such buys [45]. Pan global ramifications were swept aside (alike Hiroshima; Nagasaki & Saddam's WMDs). Biden is-&-has got bound. Un-bounding (this) face-in-mud Prometheus shall prove to be proverbial. Superbly fooled by the British Top Office guile (*note-i*).

Achtung! India has joined the cash chase. Daily dose of betel\areca chewing gets reflected in her GDP? as if, it was eschewed (her historically layered economy has got pried open; risk). The fact is war begets wealth and wealth because war [46]. Jointly cuts a civilisation's life-period on earth; civilization migrates. *Sarkaree* war-&-wealth are used to baffle those who do not consider windfall profit and or pompous prosperity as virtues. CEO-india on record has emphasized that he & his party prefer pompous prosperity {bubble effect & family value wrecker} as different from 'budgeted prosperity' {impregnable economy & joint family system}). Foreign policy in democracies have remained the hove of the elite, by the elite and for the elite. Also as 'past-time' and a 'time pass' matter. Such plethora are also contributing to our caption, 24 x 7. Senator Marcus Tullius Cicero (c.106-43B.C) opposed Senator Julius Caesar (c.) the generalissimo-cum-autocrat with dictatorial tendencies of the great Roman Republic and then again opposed Augustus Octavius (c.63B.C.-14A.D.) for converting that Republic to an Empire. Putin may end up doing the reverse. Cicero's dictum was made to fail. Roma lysed precipitously. Cicero was a wise senior citizen than the other twosome. His wisdom-dictum was "The sinews of war are infinite money" [47]. US Senator's delivery vis-à-vis the imbroglia calls for serious note.

Money musters. The US's corporate owned and commerce cajoled (eminently) free press shall belatedly posit to have realised its folly and not as blunder and act patently topsy-turvy with raredos galore. At this juncture, Iran nor N Korea can be carpet bombed; neither napalm nor agent orange used. Abu Gharib cannot be recreated. For an escape inventing something alike Covid-19 is next to impossible. There appears no alternatives save & except dropping the gauntlet. Therefore, public posturing and the need to pulverise the eminent among the domestic opposition hopefuls posits as an option however distant or distasteful [48]. The search for a fall guy had to be changed from domain Dnieper-Moskva to domestic domain. An intense try is afoot. The US is adopting the pungent indian model of crucifying the opposition leader. In democracies failure of first attack or upper hand based foreign policy can neither be converted nor diverted onto domestic opponents. The honb'l., Supreme Court(s) shall for sure take dim view(s) – India included! In democracies the lawmakers and the elite have the official power and the treasury. Power potentiates. Money mutilates. Malignancy of mind rules the roosts. Elections be the 'finger from heaven'. Ukraine imbroglia is therefore not a case of 'democracy vrs the non'. It is the creation of a professional fowler; insecure in mind; unstable in frame.

And Zelensky? His pronouncements are doled out in impeccable English the high point being perfect diction, absolute brevity and apparently pre-engineered (?). Professors of Anglo-Saxon mother tongue from the intelligence community seem to be his back room boys. 24 x 7 satellites should be beaming crystal clear images onto his desks. On & often he preempts the next Russian move including macro domain battle field movements. And, he does not know English. He was a stage actor moments before becoming the President [49]. Though scant yet precious has been indicated about him. This pen shall fail if a firm finger is not indicated towards the Dead Sea. Of all the Goebbels that are worldwide most it seems have congregated on the either side of the Atlantic with HQs at London & Warsaw, with a super elsewhere. Teachers & taught write on the

walls. The press does not, they strive to make easy for commissions & omissions so that prized investigative report can be done. The dazzling democracies and their proudest press have long decided to disregard and sweep many a thing under the carpets and/or 'kill' the stories which we try to collate herein as 'less talked'. Not that they are really 'less known'. The rich do not go to the walls; seldom pass by. The US's budget is 11 plus times that of the Russian Federation's annual budget. Difficult for the rich to read the writing on the wall. Money ill-invested up-regulates global warming. The broad shoulders of the Tax payers bear Goebbels. Non Americans bridge the deficit.

Aligning Moscow more closely with American goals would bring significant balance of power advantages to the United States [50]. "Russia as a consequential world power (as on 2018) appears to have borne at least some fruit". ... she "plays a more important role in international affairs than it did a decade ago". But increased stature does not mean being better liked" [51]. Russia was conserving her resources, near dominant role in energy market; often sending the London Stock Exchange into tail-spin (reverse seems impossible); influencing many an other international and more specially EU matters; self living a budgeted prosperity concept, mimicking the US in territorial matters and yet is a state that has eschewed the 'arms race' and 'limited nuclear warfare concept' – No other super power did so (*note-ii*). The west not only suffers from the double standard malady it is also afflicted by jealousy syndrome. It is alike any beautiful, bountiful, own home maker for whom any altruism must end adding to own kitty. The whole of west get aware of such heritage since adolescent attainment yet do precious little. The burden at sun-set is a swanky life style. Germany is talking viz., "Influential countries such as India, Vietnam and South Africa balk at criticizing Russia's invasion of Ukraine because they believe international principles are not applied equally" [52] and it matters. Times have changed so too is altering the tide ! The merchants of war and agents of blood-shed are using every tether and boulder in positive evolution's path. Whereas, democracy & judicial prudence can easily be sold to Russia with the guarantee that no part or parcel will be allowed to shear away. Please look up the 200yrs before present. The west is cunning ? It is front led by the polite Englishman - the 'artificial voice' treaty drafter. The east, the South are not ? These two hemispheres are increasingly aligning with Gandhi dictum (honesty, brevity, simplicity, barter & straightforward). In upcoming 50yrs the Gandhi will emerge as a bigger threat for the west. India is on the wrong foot ?

However, agreement/treaty drafting using complicated and/or multi use and/or obfuscating and complicating and/or convoluting phrases and words is noted in inter-province (Soviet state & its confederates) and in center-province agreements (East India company days to present day India) ! Ukraine was conceptualised as Ukraine-SSR on paper to facilitate the making of the UN [53]. A clause No.69 is noted in the Ukraine-USSR constitution 1978 amendment, to 'cede willfully' on one hand and on the other putting Ukrainian-SSR as fully subordinated to the Moscow Soviet administration with no mention of Ukraine's right vis-à-vis homeland policing or about own military formations [54]. US & Uk were uncomfortable about the arithmetic of UNO having more euro-mainland nations as voters. Therefore, clearly two non independent captive-vassal Soviet province captioned as 'a nation' (to represent the eastern hemisphere) were engineered in the UNO and other global forums. Linguistically & intent wise this document compares well with the US-Federation papers. Clumsy language, absence of economy of words and clarity, loaded with unperceivable ambiguities and infractions has been used more in the west initially for making a style statement; upper-hand feeling for long term subsequent objectives (hidden & embedded). Translation limitations cannot be ruled out. Translations from Russian language to English bears out this aspect well. This year, the representative of the Russian Federation in the UN stressed that "ignoring everything that came before 24/02/2022 is the West's attempt to confuse others and hide the real reasons of this conflict. A year in, very few doubt that the collective West is fighting Moscow and seeking its strategic defeat, with Ukraine as nothing more than a pawn"[55]. Fudge & Fob has been the standard operation procedure

in east-vrs-west socio-politico-economic matters on a centurion scale. If Russia holds on against such loose, lack, yet cumulative sleaze-&-guile; fudge-&-fob; clumsy-&-calumny it shall then compare well with India [56] Vietnam [57] & Cambodia [58], cases. As long Russia stands-up to such united gamp of guile the better the chances of ruin seizing the sleaze. Dominance & Resistance is in play (read with Ref.97). The historical outcome has always been that 'he who lives by the sword perishes by it' and '*satya-mewa-jayate*' (truth triumphs). In this regard fast-forward Modi did not miss the bus primarily due the fact that (unlike the US) India has a 'social contract' moored '*vasudhayeva kutuumbakkam*' (global family) vetted foreign policy AND dyed hard carrier officers at the steering. The White House does not have similar squad(s) nor such ethics based policy. The average age of the legislators of the richest democracy is 58 (+)yrs [59] and support bureaucracy is 45yrs. The average of the Largest democracy is 54(-)yrs [60] with gray haired support bureaucracy (*note-iii*). In the high-house of Shy Locke(s) colt officers cannot be. Seasoned minters and or master bunglers only?

Let's go back. As on 2025 what may be the dearth or the short comings on the Russian side ? it is an army (infantry in particular), and this pen has rumblings in the gut that should Modi's principal opposition (i.e., the INC) win in the India general election 2024 then she may even commit half a million of infantry or more on the Federation's side. God bless India. A loan received in 1972 remains unpaid. Whole of Europe shall then stand the theoretical specter of being run over. *Force majeure* shall come into full play and descent peace descend on. Profiteers shall scurry for cover. Imbroglio no more. What Hitler was doing on to Europe, now a days the violent quad (EU-US-UK-Polska) are trying hard on Putin ! Therefore, the 'option violent', is the commitment of the needed wherewithal by a friend on to Putin's side. It shall be the whistle of the end of such imbroglio. The 'option non-violence' is more potent & near feasible and it is that the USA wash its hands in public; state the truth that she was misled; a bit of incompetence; excess of saliva for Slavic *sampattee* (properties); was kept out of matters 'EU's mechanics for Ukraine independence'; enjoyed 'Unified Germany's pay back gift to Russia'; per chance acted as Taimur the lame; Ghengis Khan; Md Gazni.

Money can get cloths and cars but the pen is mightier. Self respecting American shall pay the price if Team Capitol Hill does not accept Team Kremlin as peers. Until-now even the minimal feeling of fraternity & inclusiveness is wanting. Introspection and frank discourse inflicted course correction is the prescription by the immortal Mahatma. Any-so-other are jackal talks. Flash Gordon shall grind to a halt – eat a humble pie. We know that the US has a problem with the Gandhi. Therefore, a non-Gandhian and or an anti-Gandhian win-win solution may be that the US returns Alaska to Russia and adopt Ukraine, solely, jointly or severally. Russia now has in the two years before present been blessed with many neo intimate friends and even *jigree dosto* (bosom friends), hence any upstart formula will be called. Making mandates money. Sanctions ? *de-jure* are a set of whimsical dictations cunning in content linguistically decorated as 'laws'. Factually, hoax. The US-UK parliamentarians consistently spent public money @ more than 2-to-3 Billion US \$s per month on the non-revenue account called 'Ukraine' (correlate with Ref 77 & same paragraph). It is an easy guess that the costs for such hoax making was deducted from the caption amounts pre to disbursement. There may have been a monthly recycling/s as well with additional downstream taps. Senators (history's guile's greats) had because the demise of the Roman Republic which was replaced with an emperor. This is how the UK hurtled to get reduced to an island with the moniker 'kingdom'. Any nation's FOREX is in part blood-&-sweat of other nationals. FOREX reserves cannot mound unless the Earth's environment is misused-abused. The US has been capitalizing its FOREX reserve for political dominance and for fooling its voters during general elections in an unsustainable manner, 2022-24 included. FOREX should be held and used conservatively for sustainable uplift [61]. Pentagon's 2022 trapeze turned out to be match stick to gun powder. Borderland conundrum metamorphosed to imbroglio. The aim-objective-&-hope is that the € will eventually weaken and the \$ will rule the roost. In such case, imbroglio cannot

wane until then. The low & the ultra low value currency nations are unanimous that the Occident adheres to double standards. Thus far they went the wrong way, now no more. The fact is that the developed nations are at their own game. They expect the rest to nod-&-shake. The more the non-stake holding nations get involved in such matters the more they contribute to the imbroglia. Zelensky's tours is widening and deepening the dig.

Zelensky keeps touring the globe soliciting sanctions. No other at-war CEO did so pre to him. His presence 24 x 7 in ground zero is not indispensable. Some ugly & severe fact is being shielded. To do so he vectored select details to almost every home & door. A rash work. National CEOs of the developing nations are neither dullards nor rogues. They deliver from within the limits of acutely crunched resources and operational envira. Zelensky seems to have no such limits; no crunches; nothing. Falls narration and/or half truths are increasingly not going to go well down with such nations. They too have thinkers and native civilising processes. The white man in general and the European in particular have historically exhibited a knack for bloodshed than for litigation and least for conflict resolution. On top be the Jew's historical irrepressible preponderance for rashness commencing with Moses through The crucifixion, Jerico to Jerusalem, etc. Truman's personal views was "Jews...have no sense of proportion nor do they have any judgment on world affairs 1947" (see Ref 41). Churchill too had near similar views [62]. Too many a statesmen have & do feel that the Jews are 'restless'; in pursuit of progeny (social engineering included) & security go far until sully. Historical commentaries and elucidates of Jewish texts seem to prod the faithful to reform not, remain belligerent, catalyse gigantic actions, peruse as peter, prostrate affront the alter, flee with flutter, blame others. History is witness that Jews are recalcitrant, prefer secrecy & covert operations over liberal, reforming, and frank way of life.

This endears them and also generates disdain. Get willingly used, eventually miss-used and finally abused. They did so in Ukraine and continue to do so sans any idea about the ramifications nor having any stand-by plan, neither seem to bother for. For two millennia in-continuum Jews have been tortured and their blood let. In turn they no more factor it in. The imbroglia is the penultimate. The greater world clearly sees the US as following the UK wantonly causing the actual black & bloody acts. Jews per-say did hardly a miniscule fraction. They only triggered. The pan-global psychological & civilisational auto counter is towards fulfilment. It is UK-US oriented. The ultimate is not afar. The imbroglia is of very complex mechanics with ultra broad spectrum. The people who fell for conundrum Ukraine are neither simpletons nor illiterate save & except all epitaphs they are despicably greedy, incompetence loaded and a risk for the civil societies. All stake holders & blood letters know that the EU relative to India, Brazil, China & US has less resource and that Russia is so very resourceful with a long intense winter (natural hiatus) that it cannot be continuously engaged on ground thus never be defeated. France exports twice the value of its imports from Ukraine. So too Germany. Their household consumables price lines are tethered well by cheap Ukrainian supplies. French CEO's call to 'defeat Russia' and call to Asia 'your war also' became necessary to maintain rosy FOREX levels and also to undermine UK. Zelensky's tours are to stress the US press & consequently corner the octogenarian in the White Jail and milch hard & swift. It also has the embedded cum hidden agenda to garner resources for, against and to various pockets. This is one in the series of signatures of some professional managing team lurking somewhere else.

Germany's youths know that the greatest gift to the German people was made by Russia [63]. Her people unwilling though her administration is so very money minded & self shackled by EU constitution that she on-&-often joins the engineered anti-Russia chorus and arms Ukraine to combat Russia. Moreover, the Russo-German nations have disdain for arms race, abhor bloodshed, are altruistic, love socialism, love laid back life with budgeted prosperity. These values are smart and anti of *Laissez-faire*. Interestingly, the US does not rhyme with such values. Far from confabulation in the

decades down from this day these two nations will more swing in tandem because a longer life-line for the imbroglia; more shall be the auto-supporting synergy of the pan global counter resulting in intensifying the imbroglia and its adverse effect on trade-commerce-&-currency = life style. Critical, dispassionate, dour and dainty dissections brings Putin's sagacity, tolerance and statesmanship to the fore. He is here to stay. Communism that was on death sores Dr. Imbroglia has delivered a bolus dose for resurgence [64]. State sponsored use of regular commandos labeled variously shall sail away from UK-US's stables to numerous. Installed puppets & vassal states shall experience the fall-out effects. France will be in the receiving end (including tiny nations having colonies). The US for all concerned is no more the underwriter of their aspirations. The world order has swift taken a sea change.

Among Anglo-Franco-German entities until 1940 the sun set not on the Union Jack. Hence the term UK. Time & tide reduced her as an Island nation with the moniker 'United Kingdom'. Poland is a millennia plus younger. And she has long waylaid the moniker in its European objectives. Polska (spikier) got free of cost some of the best arms and ammunitions of critical technology from the east & the west apart many in cash & kinds as inputs (specially 2022 onwards). Continues. Creating a surreal situation that the Russians will annihilate the US-CEO she made Biden take a deceptive train [65]. Happened never before. She painted Biden as coward and Putin as killer (imagine a story 'Coward & The Killer'); proved that the best route to Ukraine was via Warsaw. By igniting fear she instituted imbroglia. She no more needs to foot the bill. US tax payers have been dragged-pushed to the fore to foot. Brilliant Pole's.

Now, Poland was the historical mini-land of Silesia (embroidered fabric wear land) pre to c.900 A.D., pagan by faith, altering to Germanic Christians with poor Jewish & other sanctuary seekers by-&-by between c.1000 - 1700 [66]. Our considered view is that 'Zuelz' is a Germanic lemling acronym crassly denoting 'Banzara\Bedoin Jews'. There is a mini region called 'Zuelz' in geographical Silesia, deriving such name-identity from the Jewish inhabitants\sanctuary seekers [67;68]. This was possibly the earliest (silently acknowledged) Jew-land or proto Israel. Overtime Silesia captured and permanently subsumed a large chunk of prime pagan territories (warm N sea connect) with Jewish brain & brawn inputs. The existing-&-the new acquired domain got to be as Poland, a geographic misnomer (again Germanic lemling usage) in other words Silesia pre-dates Poland. Pre to this, there was un-announced Poland due un-announced Jewland and vice-versa. There was thence no Israel. Silesia part of Poland was their dream-land - an effulgent constituent of Poland. Pan Europe the Jews were the deepest down-cast. They sought refuge in the flood prone, vacant, fertile banks of the Oder i.e., Silesia. The Jews were 'a problem' [69]. And, Poland was 'a problem' [70]. Alas!

The seed of the 'Polish Problem' may be traced to this jointly with other collaterals viz., that Poland/Silesia could not project any powerful sovereign; kept fighting over religion; ethnicity; had no navy nor any invincible army over the next few centuries; yet did not align with any European mainland power which had vibrant armies and bristling maritime wherewithal. Instead such burgeoned Poland befriended distant UK and thereby instituting a bypass route between London and centro-eastern Europe. Due centuries of un-mitigating persecution and unwarranted unearned unbearable insult the Jews preferred closeness\cramping\ghettos on one hand and the distant drum on the other (*note-iv*). It (UK-Poland nexus) was a Jewish idea & work for which England remained ever beholden. The poles were ethnically & nationally diverse, comprised also of opposing religious and political allegiance groups with Jews of mostly Slavonic dialect (they too were diverse & disparate). This resulted in near continuous consternation and *internecine* activity with intermittent help calls by any of the constituent to the then period based stronger neighbor or to any willing power (including any distant drum) resulting in the vexatious political 'Polish Question'. Between c.1740-1940 she got castrated by the European historical process of national unifications, consolidations & conquests. European Christians were not inclined for an inch. The (Jew led) sea connect proved to be of incalculable

help for the Allies during WW-I & WW-II. This pen hates to quote Hitler. But quotes pivots foreign policies (our Caption), young minds need to connect. Bismarck believed that “the only solution to the ‘Polish Question’ (as he put it) was extermination of the Poles” [71]. And Hitler said “for these democracies which indulge in phrases about peace are often the most blood thirsty agitators for war” [72] (present US ?). The unspoken thing was Poles were considered as British agents in Europe’s backyard. The issue of Jewland Silesia petered (until 1941). To thwart Germany from gobbling Poland the UK for these many reasons in 1939 had to give the famous “fatal guarantee” alias ‘the paper tiger guarantee’ [73]. Poland burned, Jews bore the brunt (mankind’s shame called ‘Auschwitz’ happened). As Kennedy rescinded the Khrushchev plan, Silesia the Jewish pocket was lost deep into the Iron curtain, signed off and sealed as ‘Poland’. So, almost for a millennia plus period the Silesian/Polish Jews suffered in Poland for Poland and got lost into Poland. Israel was born elsewhere in 1948. The Israel Question was over. The Polish Jews assisted Russia yeomanly in its efforts against the IIIrd Reich. Russia paid the Jews back however being Communists could not permit a faith based province. While the western block flash ensured the birth of Israel the Communist Soviets missed giving to self and to the world a Communist Jew-Land (dogma’s limitation).

As a result, for the attainment of the IIIrd Polish Republic (1989) the Jews again put in sterling inputs which too remains to be rewarded – this time they worked as anti-Russia. So the crux is that the Jews of central Europe during the historical period c.1740-1990 were expecting Silesia as their promised land. And, that never happened. Silesia’s national colours are replicated to represent Ukraine i.e., either’s can be switched for each other with inversion of the flag’s fabric. The yellow of flag has its umbilical with the ‘jewish badge’ since Khilafat times. The blue is of David. Now, did Israel in her high offices and the faithful on the ground provide any yeoman assistance for the attainment of ‘Revolution For Dignity -2014’ ? Any quid-pro-quo ? Understandably, the central European Jews have angina pectoris that their sufferings, struggle & contribution to and for the global democratic geometry was more than that of the Dead Sea brethren’s. Not the US nor the UK somebody else checkmated the Russian juggernaut in Ukraine in 2022 and that somebody also instituted the imbroglia and keeps topping its energy basket.

Covid-19 ? well SARS-2 (covid-19) was/is hundreds of times less pathogenic (if not by an order of a few thousand) than SARS-1 (2003). What then was the rationale and the need to usher it with gongs, cymbals, utensil beatings; and lamp lighting; etc ? Putin was the lone man out! A nonplused Biden (apparently) did not understand as to what was afoot ! (note – v). Ah ! and the Physiology Noble 2023 went to decorate Jews. The superb Jews were poised on the take off block from invention-marketing-sales-receipt-closure-&-award receipt. They have always contributed from the forefront (critical technologies) to make America mighty. That nation’s and its cousin the EU’s tax payers were to only spend fortunes which meandered down the Jordan to get deposited in the sea of dead ? Amazonia !

Ukraine question came in handy for the gong beaters and for the converters of Covid into cash catch contests. They all pitched in which now is the nomenclature ‘imbroglia’. As compared (to any other pan-global statesman) the US president wears a slimy look ? His Excellency’s confidence of being humane and commitment to empathy has been misused. In order to get away from such realities the US has to start bombing some nation somewhere with the help of linesman London in order to help the trouble making Tories tide over their historical bungling. The US has to get involved in a three-legged race. Honb’l CEO-UK is a professional and a difficult customer for any sack race far apart any three-legged. Iran is a difficult target pre to US general elections. Pakistan in Oct.2022 had record floods. Among the international aids she was also offered F-16 fighter jets (did not materialize). Now if these jets fly towards hostile India then the US, UK & Pak can say that they are so doing to deliver relief. Conversely it can be said that it is the US that has attacked India. So Iran design type drones having been part manufactured and or assembled in Asia, Africa, Kamchatka, Tibet or Timbktu cannot be said as an attack by Iran. Yet Washington DC and its sleeper agents

on the either side of the Atlantic (BBC & CNN included) are drumming incessantly that it is Iran that is attacking Ukraine and the Russians are combating UK’s; EU’s & NATO’s machinery unwarrantedly. Logic is popular in the Occident and conspicuously untraceable in Oriental/Vedic mathematics. This is indelible signature of ‘not confused but contrived mind set i.e., malignant mind forged foreign policy’ alias imbroglia. The white man refuses to graduate from double speak and the trapeze of multiple standards. Money making is the common minimum *nirantar anusilan* i.e., endless practice [74]. Mafias are all etiquette & magnificent. Deficit financing [75] is being done at the cost of the Earth’s environment. This is no policy. Meanwhile, as these presents be read by the esteemed readers the imbroglia has further pounded the \$ and the £ down, evangelized the €, respectively. Moment by moment, either by a fraction or by a bit. No let-up.

The US’s federal fiscal wish-&-objective of destabilising the rising Euro [76] is now a lame duck. Less people are transacting via the Dollar-Pound in the major stock exchanges; London included; EU banks are insisting on overseas money in-flow in Euros; etc., even for 100 USDs via electronic transfer routes. The British Pound & The US Dollar have been loosing sheen against the Euro hence this is also a silent embedded cause. To the counter there is in general a negative sentiment against the Green Back as it is being viewed as a tool or that which belongs to the indiscriminate bombardier. The EU in its parleys is proving that they have not catalysed the imbroglia and whereas they have anti-Russia agenda *per-say* while elsewhere they say the opposite. Contradictions convey confusion (but) not always, may reflect character, hidden agenda, theft or intentions thereof, etc. Marketers love it. Profiteers more. Merchants of mayhem the most. This is going to puncture more & more the London stock exchange (LSE) in the coming years.

Money is energy and such energy is neither constant nor evaporates entirely. Stock exchanges are fiscal energy generators cum conservers. The LSE is the muscles of a non existing empire. Due the LSE Britain in-spite of being a resource-less mini island posits as UK (empire). A gas bag that she often swirls on the White House and hurls at her opponents. And the benefits of a whittling LSE is percolating on to other continental & sub-continental centers resulting in a pan global gain. Britain’s loss is other’s gain. That gives glee to the franco-phone back room boys her nearest detractors among the pan-global Quattro. The LSE is also expensive. So the gradient is already existing. Imbroglia has hastened the aging of the Lion-on-the Thames with a prescription for protracted bed rest (down-down). Posturing is now the gold standard. Further, due the imbroglia the global money market is becoming quite a bit economic and shall no more be what it used to. Shy Locke the money lender adhered to stern fiscal discipline and hence used to maintain ‘books of accounts’ (Merchant Of Venice; Shakespeare). Stock exchanges are junctions from which researchers can fuzz out if there be any signature of Zelensky’s or his handler’s nexus. He is a nice Jew, with a penchant for account keeping.

Another set of silent distillate of the imbroglia are also that the NATO is a load on the US revenue account [77]. The US gathers revenue from across the globe. M/s NATO brings no revenue into the hands at homeland except to a few killers; burners; blood-letters; mongrels; mass murders; turn coats; trundlers and their motor mouths. Following the instilling of the EU constitution on one hand and on the other ‘nil’ Russian agenda to wage war with the west the US can no more busy Brussels to burnish US interests in Europe. US’s Trillion \$ deficit budget is well covered by her mind-boggling cash flow. Imbroglia holds the mirror that NATO now means ‘cash flows out’; ‘cash loss’. Arms market based employment base is too small and has least room for the educated. On sphincter time scale sample cash cow reduces unemployment [78] and wholesale prices reflecting as positive indices (reduced from (+)1% to (-) 4% during imbroglia period ~ US) and obstinately negative in the long. Data engineered ?. The (year long) monthly 2Billion US\$ doles are the cash loss for US and cows for the EU. US elections are round the corner, *munificence* & windfall gains is urgently required. The White House in a calculated manner goes around with ‘foot-in-mouth’ so

that a % of such cash can safely be harvested for party purposes and/or as the last 'take-home tranche' pre *sayonara*.

So long as the imbroglia goes on regression of such indices can be wished away. NATO's pre imbroglia annual budget was \$910 billion \$, in 2023, it is \$1.1 trillion. The US spends-&-invests 3.49 percent of its GDP (23 Trillion into NATO). Poland's GDP is 680 Billion \$ and she contributed 4.5% of such GDP = 35 Billion \$ to NATO and got 2 % of the 23 Trillion = 460 Billion US\$? Poland strikes Gold ? India's GDP = 3 Trillion US\$. The deep-pockets rightly want India to join NATO. Along with other's Indian monies can be diverted to a few select in the game of putting-down Putin. Post imbroglia (if at all happens) Poland shall continue to have its pound of flesh and eat it too. It will be quite stale all along the eastern shore board of the Americas. So NATO is a bad investment from US tax payer's perspective [79] and Poland from EU's perspectives, respectively. The later is increasingly becoming a cause for unrest, uncertainty & disquiet. All this is alike betting on a person who for sure will blow a part in brothel. The pan global (disconnected & clueless) Jews are likely to experience frowns and stern look-downs. What a loss for the entire race. Imbroglia's another dimension my Lord.

Diplomacy is an envelope. Foreign policy is an open book. Vis-à-vis the imbroglia Modi's administration has shut the book and peddled the envelope well. India now flashes the diplomatic envelope on case basis. It contains the grammar of multiple standards. Other nations are following suit. For too many nations across the globe voluntarily of own accord following the largest democracy is common sense, convenient and fructuous. Exclusively due the imbroglia India too is making money from 'n' number of boroughs & burrows. In 2023, more nations are sympathetic with Russia than in 2022 [80]. Anti-hegemony factor is stacked against the US [81]. 2024 onwards the US-UK-Poland combine shall be the odd troika out and the fall guys. A case of same sex polygamy resulting in pity ! Duda-on-the Vistula is gnashing, Joe-Rishi are barking, Modi is basking. Former trio loosing followers, the later is gaining. Piquant indeed. Low & silent have fallen they who all are propping Russia up. The Billions released by US-UK-&-EU is percolating & transvasesing in poly axis. No way to stop. They are busy, are numerous. Imbroglia has generated work load on hand. It is opportunity for too many. They are not covered. The professional Fowler's negative plans are getting positive and vice-versa. As the 3rd world benefits they perform well and pray '*imbroglia zindabaad*' (long live imbroglia). It is an art learnt from the Occidental trapeze and not from Russia. Russia taught (i) budgeted comforts (ii) conservation & (iii) laid back life style. The Indians that the white man gets to see and or employ are not the ones who govern India. This pen shall not be surprised if Putin lands up on the Raj Path to receive the national salute. The eagle did not design the imbroglia it played into the hands of a professional fouler. The imbroglia is stacking almost everything against the eagle-passport.

Concerted action by a cohesive oil majors is fostering beyond the visible range. It has commenced under banner 'Ukraine Peace Initiative'. Oil per gallon shall this year hoover between 4.5-to-5 US \$. The generated extra shall be shared with Siddeeq & Rustom (Putin's obverse & reverse sides). The cross Atlantic supply chain shall become costly & suspect too creating unending unmanageable percolating shocks [82]. Putin is neither alone nor the head of one team. Today the Duma is cohesive, debating, brain storming & burning mid night oil [83]. Russians have taken an important mini step towards democracy; her economy is doing well [84] and whereas the US's has taken a down drive should the arms-economy arising off the imbroglia be discounted [85]. Using depleted uranium tipped arsenals; semi-isotopes primed explosives; pumping 2 Billion US \$ per month with the orchestration master on the either sides of the Atlantic has been demeaning, belittling, a maddening mode of warring and war moderation, respectively. Warnings & placating could not have become so weightless if Polska and a technological peer would not have been at the wheels. How come so much disconnect ? The white man has for generations been warring and bloodletting - dyed hard habit? The way Russia has been harmed it will be difficult even for a coward to forgive and a wayward to forget.

Arrogance effluxes from exchange rate. Over confidence due technological power. Money mutilates. Malignancy of mind is dished as 'foreign policy'. Situation brews decay-dissent-& violence i.e., *inkelaaab* (revolt). Happened with Caesar to Napoleon and all. History repeats. Nonchalance exhibits in scenario Ukraine. And, the world order is altering to attack. Counter is being mounted. Already dented (western economies & personalities). Meanwhile, most of the Arabic; Islamic; African; Latin; Asian; et.al., nations have dropped the US made bullets and have busied self in contributing mind, money, and myard in making & carrying things for the Russians and weaning self away from US products and services. A pan-global voluntary urge is in motion. Difficult for the White House to make a come back to pre 2022 grace. The Westminster stands labeled as a motor mouth and as an Illrd rate power. Why ? sans any American shoulder the UK would not go anywhere. Even to re-join the EU (makes-it) she requires an underhand. Therefore, any 'Ukraine Plan' is going to be a non-starter. Investments made to check-mate Russia has wholesomely gone down the drain. Every move is up-regulating the crisis. It is imbroglia. Refractile !

As we analyze the events on the ground we note that the Russians had no preparation, no investment at all with modern system fit for Europe territory capturing warfare. She launched an arcane conventional assault of muscle flexing; haphazard; delayed at border. Her military handling men appeared to be an army of oldies & geriatric group. Her Brass stacks reminds one of Col. Blimp [86]. She had no idea that NATO & Poland had dressed up as Ukraine which responded with a never before like hybrid counter. Almost everything about the Russians was arcane (a-to-z). Many a European nation (even mini) have much better equipped infantry, artillery, electronic concepts & systems; optimised command and control; synergistic intelligence augmented; superbly orchestrated, articulated and garnered oratory. Russia since 1980 (?) had invested in an unthought out manner in non synergistic defense. For cross border war the investment was almost nil ! For useless muscle flexing i.e, paper tiger methods, quite a bit. In other sectors of her economy she invested extensively & astutely. The return on her (ROI) civil side investment is worth weighing. Clearly, she is seen to have invested & indulged more for peace, industrialization, natural resource mobilization, pan global integration and a laid back life style. On one hand she was not planning for decades any invasion of Europe; also had no nightmares that the west Euro nation/s would do so. On the other hand (alike India) Russia was on the hormones of corruption that was never vigiled due to absence of public audit, internal or concurrent, free press & judicial overreach of which the most part was that its 'establishment' was leviathan of a bourgeoisie; ever burgeoning, systemic, self glorifying, self bedazzled, and one section defeated the other by mean means and methods; roll in & with the good things of life all 100% state sub vented; no democratic institutions nor any processes thereof. Judicial prudence ? absent sir [87]. Even communistic purging was not being done excepting occasional prosecution of select 'nay' sayer. Her tom tomed high end technology products were few and far between and mostly for demonstration & regal stage purposes (impression creation) and limited sales or for special purpose revenue. The lighter side of such un-mitigating pain is that a goliath went to pick out ants and he turned out to be a patient of elephantiasis. The hard fact is that she was oblivious of multi-national sponsored proxy war in her up-close Borderland and had marched in blindly. There was some urgent-&-grave stimulus for her to act in haste.

Russia's competitors have been practicing 'proxy war' since Cuba; Kashmir; Crimea; Afghanistan; Chechnya; etc., where not ? [88;89]; with mind-maddening money mechanics [90]. And have mastered it. Formidable by now. May be the NATO has a blue print ready also to deal with India. The investors to the proxy war are all from the democracies [91]; misinforming the voter; befooling the tax payer being the SOP (standard operation procedure). Fooling all, all the time, winning-minting all the way. Just the reverse of what was said by the US's founding fathers. Pray then why such SOP ? it is so because the USA is a very strange civilization. Never before any alike was ever there on Earth. For the USA neither God; nor mammon; nor her constitution be the calling spirits. For her 'prosperity' is God and

'ethics nationale'. It is next to impossible to label an average American citizen as 'scrooge'; while it is easy & apt to label any American as 'shylock'. They are not bad-baddy. They are money wise. Somebody who has a good insight and experience and is very close engineered a fear psychosis in every echelons of the US administration (pre-meditated) and thereafter made her to smell prosperity in Burning Ukraine and Bleeding Russia. Not quite civil, yet suave to the hilt. The model was fit for the flamboyant (Mr. Flash Gordon). And, Gordon seized it in a flash. Moreover, any story about any possible hand or mind behind Covid-19 had to be killed (sword of Damocles; the seat is vacant). EU's consistent investment-cum-support for China helped each other in matters pandemic economics, covid-jab innovation and related matters, etc (*note-vi*). It upset the designer's track & cart. A case of clinical finish to say 'no' to peace on Earth. 'Imbroglio' is the mono-phone.

Implementing beyond the visible range policy Ukraine was curved out by a brilliant EU for resource mining and competition against the UK, the US, also to humble & humiliate Russia (Poland driven agenda; Jew role ascertaining due). The Russians were loud-&-frank even pre to the 2nd Chechnya war. Russia the territory loser's 'special military operation' is not a case of "military strategy was determining economic policy rather the other way round" [92]. It is more a case of 'politics & loss determining military action' and thus is more alike Falkland-UK [93]; and/or 'Operation Vijay'-India, 1961 & 1991[94] or the corporate East India Company's standard tactics in India (c.1650-1850). Genius Polaska exploited Ukraine's Ore, Iron & Steel, elbowed out ship building and maritime economies, US grain exports nosedived, etc., [95] and sent UK's & even Germany's steel industry into tail spin. She has no Lithium ores. The official statement is "there is no prospect of finding lithium reserves in Poland". Yet she overtook the US in Lithium ion Batteries [96]. She mined it from Ukraine and minted mounds. In other words as run up to 2022 events Poland-Ukraine the twosome having politically & territorially defeated Russia took on UK & USA silently and check mated them economically. She again set about to do something about 'Jew-land Question' to which Russia responded with the 'special military op'. Poland since 1500yrs before present has been consistent. She has proven that she can out-perform the British's East India Policy in defeating all – enriching self. No wonder! the CEO-US donned Dr. Hide and travelled to Kiev in a hired 'Rail Force-1' (see Ref. 65). Oh ! what reduction.

The Russian way of life is dour, conservative non political mono party based socialism i.e., non profligate. Whereas, every aspect of US's life & time is party based frank profligate politics. Either's ethos emanates from contrary and confabulating domestic history, agro-meteorology, politico-socio-economic bed volumes. Imbroglio is the outcome result of such contrast and the contest thereof. It is also a case of Dominance & Resistance. It is human. It is civilizational. It is historical [97]. Part & parcel of our lives & times. Shall keep enlarging and encompassing the more. Our imbroglio-can also be connected to such process. Furthermore, NATO's mongering is large & heavy add-ons. It acts as alike a nation. Self arrogated role. And, that is the pan global difficulty. Due NATO the imbroglio. And due the imbroglio the US is in quagmire. Hello ! This is not US's war. It is also not Germany's war. The special military operation was pro UK, would have been blessing in disguise for Germany and US. An upstart UK lost it for all ? Non of this troika initiated imbroglio, only up-regulated the nasty. It is a case of 'shooting at own feet'. It is bound to end on respective face. The faces are already slimy.

In Ukraine the UK has directly participated using men, material & logistics. It is now in motor mouth gear. Her fresh desires if any to be in Europe via the North sea, gain from around the hind, enter into prosperous-robust trade via economic-land routes (invest also in them) into Europe's back door which has triple vestibules – (i) the eastern goes into the whole of ready market Europe; (ii) the south to its financial capital Switzerland and (iii) the western into raw resource Russia has been failed by the redoubtable twosome and their cohort Mr. Zelensky. When it comes to commerce by a scrooge, man's mind marvels at the make "Shy Locke the Jew". When it comes to failing the Jews it is 'Zelensky the Jew'. When it comes to stumping all and

yet not get to be seen – it is Polska. And When it comes to failing brother Britain insufficient shall be the averment that 'managers to the Ukraine question flummoxed the British Cab Sec & his team as possibly did no one in history'. And, Rae for Risina Hill to remain relished. A, 2nd Jew-land on the borderland's sea rim is now a dream distant. It is gone with the wind. Nothing happened overnight. The overnight decision to quit the Ukraine conundrum shall be the biggest gift to the Green back, to the Sterling and all it means and connotes. There shall then be 'Resolution of Conflict'.

Let us now visit the Dead Sea brethren's travails. Silesia-&-central Europe's Jews have speed prospered post Russia's gift of German unification and Poland's prosperity due exclusive access to Ukraine's tomes of wealth AND close-up with Euro market. They are paying back Russia via apostatize – if we may not force self to see otherwise ? Anyway, due high fecundity Israel the sandy-semi desert land is bursting at the rims. A second homeland is direly needed. The Dead Sea brethren were wanting in rescue & relief operations whence central European Jews were facing existential crisis [98]. They survived (with Russian help) sans any inputs from Tel Aviv. Survival happened due secular quarters. Post formation of a non Communist Poland there had arisen an opportunity for grievance redress. Silesia has zigzag numerous porous converging international borders where a consensus & conveniences based Jewland is difficult. Better is the ever-green, sunny, bountiful black sea rim locus. Was Odessa\Kherston the chosen region? [99]. Was it that yeoman Jewish assistance was availed for the attainment of 'Revolution For Dignity - 2014' in exchange for an outlet in the Borderland's warm sunny-salubrious Black sea rim and that such '2nd promised land' by someone to someone was not being met with ? although decades rolled past ! [100] or was being allotted a not so lovely domain ? Was it that the high-offices in Tel Aviv was nervous of the fact that a 2nd Jew-Land would rob the desert state & the entrenched powers that be of its eminence and importance in the Euro-American arena & affairs particularly? Or, (farthest from facts) is it that the Russians wanted to interdict the permanent cessation of any territory of her erstwhile prized province? as the Israel question was already met with in 1945 and Soviet land had recognized it within 3 days. Regarding recognizing Israel Gen Marshall desired a slow approach [101]. Or, that the special military operation was a mere co-incidence? Nuts. The Russians were continuously raising the issue of 'loss of Ukraine i.e., rob of Russian province'.

Whatever be that & those cause & effects, the flourishing folks who's mother-objective got failed in force-haste departed en-mass as refugees, abdicated beautiful- bountiful motherland Ukraine which got de-populated as alike their ancestors had repeatedly done during the 2500+ yrs before present. Euro greed pestled the hapless, clueless refugees and their 70yrs toil & savings. Multi-national mongrels with sacks of evil have occupied the vacant towns & villages of plenty signing the nameplate as 'House of Imbroglio'. They do not know that by a quirk of destiny they in history books are likely to be penned as 'shamed shylocks' and or as 'sly-jews'. Moses felt betrayed and indulged in rash ? Hence, Za'afiel sent fire & smoke onto the whole of the Tsar's Borderland followed by swirling waters while Zeurel keeps pulverising structures into rubble.

US which is home to more Jews can easily appease Moses & Abraham by parting a mini portion of her home-land (there is a Ukraine (borderland) in USA and that too a troublesome one on her southern side) for the formation of 2nd Jew-Land and or swap Alaska-Ukraine with Russia. And that shall terminate the imbroglio. History has noted with red-ink that these mongrels were Poles; Britons; Yankees & Napoleon's people. All this has been acutely pectoris to pen. American citizens love to demolish homes & herths outside USA to bring prosperity home (character nationale). Sanatan's (perennial) recitation nationale (Bhagvad Geeta) in canto 16.21 (Three gateways to neither-world and/or self-destruction are: Lust, Greed, & Anger). India's The God, 'The Constitution of India' says "Satya-mewajayate" (Truth triumphs). US's constitution ? In such direction these presents as author's own mint; ground breaking, shackle free thought for academic gymnastics. Not for dogmatix.

Acknowledgement

The first edition was a Non Paper that was shared with NSA – India as an unsolicited Non-Paper on 25-10-22. Since then this mss., has been on the working table. A copy was officially submitted to Indian Public Policy Review – Bangalore on 15-8-23 returned after 7 weeks. Leaked? Covenance fogged. Academic dishonesty is a large component of India establishment. It mostly creped in post 1990. Post such happenings we contacted IJDR. Thanks & Regards with Love & Joy.

Notes :

Note-i : UK had opposed French desire of US intervention in Vietnam; stayed off. In turn the US's showed bruised-lacerating-cold-&-flat feet resulting in loss of Hong Kong. In either case the US ended with feces on face.

Note-ii : Arms syndicate be the historical insurmountable bottle neck (since Khrushchev's period). Russia had rescinded it 100% - USA followed UK to ensure a U turn by that Federation.

Note-iii : Age kept under wraps; lot many non-faders & squatters with hand(s) elbow deep in the pay-perks-perquisite, bins.

Note-iv : This in-turn instilled secrecy to their nature and way of life i.e., "collective neurosis" ~ S. Freud {a Jew}

Note-v : Joining late yet his folks made most of the money as in the caption context. He saw a motley group push-pulling an ass and quickly vectored it towards the market.

Note-vi : this pen-man did not take the job {proscribed it in other writings.
